## QI Project FAQS A Guide for Clinical Preceptors

1	WHAT IS A QI PROJECT?
	<ul> <li>QI stands for 'Quality Improvement Process'. All R1s must complete a QI as part of their R1 Scholar Curriculum.</li> </ul>
2	WHY DO RESIDENTS DO ONE?
	<ul> <li>The goal of the QI is to learn how to identify and respond to safety, efficiency and/or quality concerns.</li> </ul>
	<ul> <li>Residents are encouraged to select topic areas that are not primarily of academic interest (but may do so in the end).</li> </ul>
	To learn a process that you can implement in your own practice to earn Mainpro credits.
3	WHAT ARE SOME PREVIOUS TOPICS THAT RESIDENTS HAVE CHOSEN?
	Work flow, e.g., improving wait-times
	<ul> <li>Office management, e.g., making sure staff know what to do in the event a patient "codes"</li> <li>Following guidelines, e.g., improving the screening for and/or clinical management of chronic diseases</li> </ul>
	<ul> <li>Patient education, e.g., educating patients on aspects of their care</li> </ul>
4	WHAT IS MY ROLE AS A PRECEPTOR?
_	Collaborate with the resident to choose a domain of practice and formulate a question.
	<ul> <li>Decide if you would like to work with the resident, or allow them to work independently, to</li> </ul>
	select a practice standard and audit method, perform the audit, analyze and summarize the
	results, and prepare a report which they can present to the preceptor/office.
	<ul> <li>Collaborate with the resident to develop and implement an improvement plan if needed.</li> </ul>
